## Professional Summary

---

Passionate and results-driven Frontend Developer with extensive expertise in creating engaging, responsive, and user-centric web applications using modern technologies like React.js, JavaScript, and Next.JS. Adept at improving performance, ensuring cross-device compatibility, and collaborating with cross-functional teams to deliver seamless and impactful user experiences. Experienced in debugging complex issues and optimizing web applications for superior performance and scalability. Eager to contribute innovative ideas and technical skills to projects at leading organizations, where I can grow professionally and make a tangible impact.

## Work experience

---

### ULTISMART INFO-TECH | Intern

Mysore, Karnataka | 04.2024 – 09.2024

- As a Frontend Developer Intern, I worked on developing and enhancing user interfaces for web applications using modern technologies such as HTML, CSS, JavaScript, and React.
- I collaborated with the design and backend teams to ensure seamless integration, responsiveness, and an optimal user experience across multiple devices
- My role involved debugging and optimizing front-end performance. Additionally, I gained exposure to version control tools like Git and contributed to the delivery of high-quality features and solutions.

## Education

---

### Vidyavardhaka College Of Engineering | Bachelor's Degree

Mysore, Karnataka | 08.2019 - 04.2024

Bachelor Of Engineering in Computer Science      cumulative CGPA – 6.4

### KLE Prerana PU College | Pre University Education

Hubli, Karnataka | 2016 -2018

Percentage – 86%

### Kendriya Vidyalaya Mysore | Secondary Education

Mysore, Karnataka | 2016

Percentage – 78%

## Skills

---

**Frontend** - HTML, CSS, JavaScript , RESTful APIs, Responsive Design

**Frameworks** - React.js, Bootstrap, Tailwind CSS

**Backend** - Node.js, Express.js, SQL(MySQL), NoSQL(Mongo DB), Authentication(OAuth)

**Other Skills** - SEO Optimization, Version Control(Git)

**Soft Skills** - Problem-Solving, Communication, Collaboration, Time Management

*All professional proficiency or above*

## Projects

---

- **Food-Delivery Website | Technologies Used: React.js, HTML5, CSS3, JavaScript, Node.JS, REST APIs**

Developed the frontend of a dynamic, user-friendly food delivery website that allows users to browse restaurant menus, place orders, and track deliveries in real-time. Managed application state and optimized performance using React Hooks and Context API for efficient data handling and rendering. Successfully deployed a highly interactive, visually appealing, and fully responsive food delivery app.

- **Portfolio Website | Technologies Used: React.js, HTML5, CSS3, JavaScript, Node.JS, REST APIs**

Developed and designed a personal portfolio website to showcase projects, skills, and professional achievements. The site was built with a focus on modern design principles, responsiveness, and performance to provide an engaging user experience. Incorporated interactive elements, such as hover effects and scroll-based animations, to enhance the user experience. Utilized React.js to build interactive components, including a dynamic project gallery, contact form, and client testimonials section.

- **Employee Management System | Technologies Used: React.js, HTML5, CSS3, JavaScript, Node.JS, REST APIs**

Developed the frontend of an employee management system that enables HR teams and managers to track, manage, and update employee details, schedules, and performance. The application offers an intuitive, data-driven interface for easy management of employee records and workflows. Integrated RESTful APIs to fetch and manage employee data, enabling real-time updates, employee record creation, editing, and deletion. Implemented state management ensuring smooth data flow and state consistency across multiple components. Ensured data security and proper role-based access by creating secure login pages and authorization flows.
